FALL 2025 HIGHLIGHTS: CELEBRATING DATA-DRIVEN SUCCESS

Data and Donuts: A Sweet Success!

This fall, IESIT hosted our inaugural Data and Donuts event, welcoming faculty and staff to explore the wealth of institutional data and resources available across our unit. Participants received a "Donut Passport" and traveled to various stations to learn about new datasets, tools, and insights that support data-informed decision making at ASU. Those who visited all stations were entered into a prize drawing-congratulations to our three winners! Thank you to everyone who joined us for this engaging and informative event.

Data and Donut Winners:

DR. BOAZ BIVENS

DR. KAMIA SLAUGHTER

DATA DAY 2025: PEER-TO-PEER LEARNING AT ITS BEST

Our Data Day 2025 event brought together faculty and staff for a day of presentations, testimonials, and hands-on training focused on leveraging data across departments. Colleagues shared how they use data to drive decisions in their units, offering valuable peer-to-peer insights. Attendees explored Tableau dashboards with live walkthroughs, learned how to extract meaningful information, and reviewed key datasets including IPEDS reports. The collaborative spirit and enthusiasm for data literacy made this event a highlight of the semester!
