VI. RECOMMENDED PRACTICES FOR POLICY AND PROCEDURAL DEVELOPMENT:
According to the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) Developing Policies and Procedure Documents, a “functional policy is one that is broad enough to encompass all aspects of the issue addressed, not just one or several facets of it. It is approved through the appropriate institutional processes and published in appropriate institutional publications and on the institutional website in order to ensure accessibility to those affected by the policy and its related procedures. In addition to the language of the policy itself, the document includes: (1) a concise statement of the purpose of the policy and assurance that it is aligned with institutional or unit purposes; and (2) the implementation date and the dates of any subsequent revisions to the policy” (SACSCOC Good Practices, 2010).

SACSCOC defines ‘well-defined procedures’ based on five principles: (1) designate the personnel responsible for implementing the policy, (2) institutional constituents are informed of the policy and procedures it entails, (3) provide a timeline for completion of procedures, (4) have a methodology for monitoring compliance with the policy and reporting results, and (5) schedule reviewing the effectiveness of the policy and its attendant procedures (SACSCOC, 2010).
